

This guy literally eats his dog shit, two giant blood hounds that smell like a festering Puerto Rican wound in a whorehouse and never stop slobbering. Maybe he is in the wrong program. Do we have PA yet, Pica Anonymous? I'll have to check the new DSMV because I'm not sure if pica is only auto shit eating or if eating other peoples' counts too. Oh yeah, and he tells me not to smoke, the fucker has a plug of Red Man in and swallows it. Bon Vivant!

What would happen if I threw a penny at her forehead? She probably wouldn't even notice. Maybe it's because it's Sunday that I feel like life isn't

worth living. Maybe a bullet in the forehead of anyone who laughs at her? I would rather be in a Golden Corral Restaurant, eating French dishes prepared by Hondurans with ingredients that couldn't pass dog food inspection, than listening to her shit.

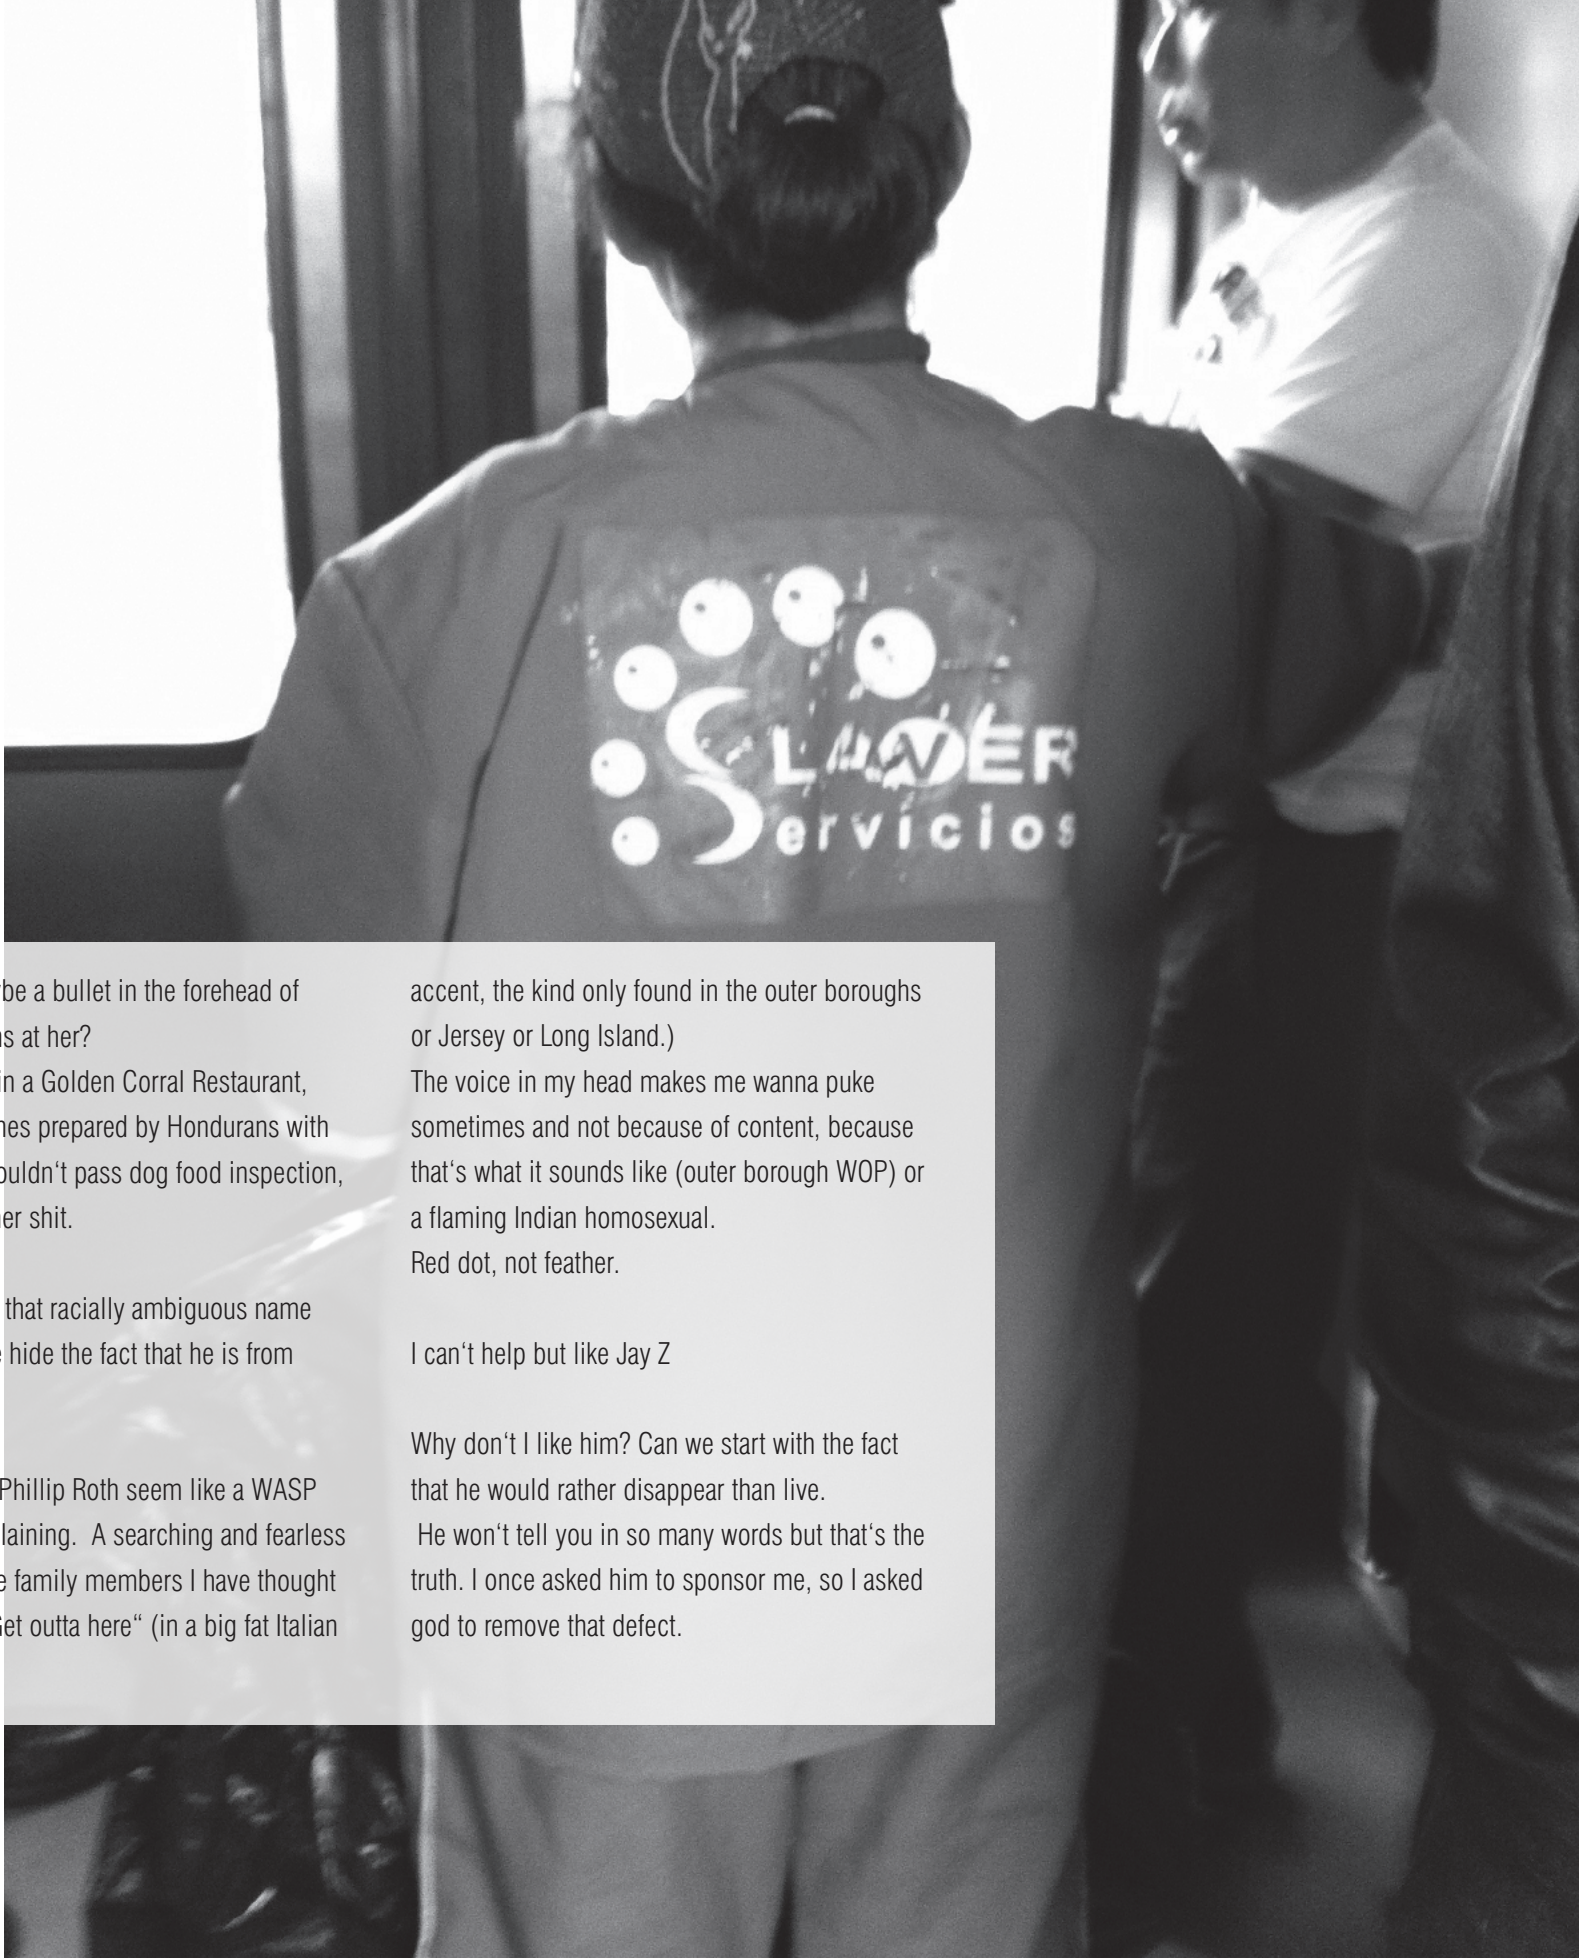

Did they give him that racially ambiguous name on purpose to like hide the fact that he is from _____?

And me... I make Phillip Roth seem like a WASP with all this complaining. A searching and fearless inventory of all the family members I have thought about fucking. „Get outta here“ (in a big fat Italian

accent, the kind only found in the outer boroughs or Jersey or Long Island.) The voice in my head makes me wanna puke sometimes and not because of content, because that's what it sounds like (outer borough WOP) or a flaming Indian homosexual. Red dot, not feather.

I can't help but like Jay Z

Why don't I like him? Can we start with the fact that he would rather disappear than live. He won't tell you in so many words but that's the truth. I once asked him to sponsor me, so I asked god to remove that defect.
